

LIVES TAKEN:
OCTOBER 2018

FROM:
WEST LAKE HILLS, TX

Leslie Rosenberg was driving her daughter, Sophie (19), back to Texas A&M when a poorly-lit tanker truck failed to yield at a stop sign.

They were killed instantly.

OPPOSE HB 19 for LESLIE and SOPHIE

Leslie's husband was left to parent nine children alone. The truck driver that killed them decided to pull out from a stop sign and block all four lanes of traffic when he said he saw their car traveling at highway speeds just seconds away. The Rosenberg family was able to receive justice for the loss of their beloved mother and sister. If HB 19 passes, other Texas families won't receive full justice, and more preventable truck wrecks will occur.

Texas needs #SafeRoads.

"Corporations and companies, at the end of the day, are all about the bottom line, and if they're receiving any kind of repercussions or negative press, ideally what makes sense for them is to change their practices... so they don't have this kind of issue again."

**-Jakob Rosenberg,
Sophie's brother**
