SB 30 IS A GIVEAWAY TO INSURANCE COMPANIES

Senate Bill 30 prevents injured Texans from recovering their full damages in court. When wrongdoers — and their insurers — are allowed to escape the consequences of their actions, costs are socialized while illicit profits are privatized. Families pay the price.

AM Best recently reported the property/casualty insurance industry made **\$169 billion in net income** in 2024, an increase of nearly 90%. Furthermore, the industry has amassed an astonishing **\$1.1 trillion in surplus.** The highly-respected Weiss Ratings also announced, "Insurers often blame premium hikes on underwriting losses, but their investment gains tell a different story," noting insurers earned **\$155 billion from investments** and other sources nationally over the last 20 years.

Texans' rights should not be sacrificed for insurers' profits. **Please vote NO on SB 30.**

WE NEED REAL INSURANCE REFORM, NOT MORE TORT "REFORM."
